

PASSENGER INFORMATION

If you arrived at Flores Island from outside of the Azores, and have to be re-tested for SARS-CoV-2, on the 6th day:

- a) As soon as possible you should contact the local health service by:
 - ✓ Phone (292 590 270) or
 - ✓ Electronic mail(sres-dsf@azores.gov.pt);
- b) Upon that contact, you have to:
 - ✓ Inform on which day the biological sample should be collected;
 - ✓ Provide a working and accessible phone number;
 - ✓ Provide the address at which you'll be staying at Flores Island.
- c) You don't have to be in profilactic isolation while you wait for the test results. You should, however, comply with the present and local rules, such as wearing a mask in closed public areas, keeping social distancing and good respiratory hygiene/cough etiquette.

Why do I have to be tested again?

If you stay in the Azores for seven days or more, you should, prior to the 6th day from your first SARS-CoV-2 test, contact the Local Health Authority of the county you're staying in. This Local Health Authority will schedule, perform and give you the result for the new test.
